Experience

Full Stack Web Development (MERN) Intern *Feb 2026 – May 2026*

SuprMentr Technologies Pvt Ltd *Bengaluru, Karnataka*

- Completed a **4-Month MERN Stack internship**, gaining hands-on experience in **HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, Git, GitHub**, and database integration using **MongoDB**, and responsive web development through full-stack web application development.
- Built a **React-Based** weather dashboard integrating **OpenWeather API** to fetch **real-time Weather Data** for **Multiple Locations**.

Projects

• SELF CREATED PROJECT *Aug 2026*

1. Students Academic Issue Reporting System with AI Integration (MERN Stack)

Technologies: React.js, JavaScript, CSS3, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Axios, bcryptjs, Google Gemini AI, Git/GitHub, Render

• Developed and deployed a full-stack **MERN application** for academic issues reporting and tracking, integrating **React.js, Node.js, Express.js, and MongoDB**.

• Implemented **user authentication with bcrypt password hashing**, profile management, input validation, and **CRUD operations** for academic issues using **RESTful APIs**.

• Integrated **Google Gemini AI** for AI-powered academic solutions and follow-up questions, along with **speech-to-text functionality** for issue submission.

• Built interactive features including **issue likes, keyword-based search, contact and feedback management**; uploaded the project to **GitHub**, deployed it on **Render**, and tested the application's functionality in the live environment.

INTERNSHIP PROJECT *May 2026*

2. Weather Application (React.js) | React.js, JavaScript, HTML5, CSS3, Material UI (MUI), REST API, OpenWeather API

• Developed a responsive **Weather Dashboard using React.js.**
• Integrated **OpenWeather API** to display real-time weather information for user-specified locations.
• Implemented dynamic **real-time weather updates and forecasting features.**
• Built a responsive UI using **Material UI components.**
• Enhanced user experience with **weather-based visual representations (images/icons).**
• Optimized API handling and improved application performance.
• Followed **Git/GitHub version control** and **deployment concepts.**

- Followed **software development best practices** including version control using **Git/GitHub**, **debugging**, and **full-stack project development lifecycle**.

• Course Projects (Delta Full Stack Web Development – Apna College)

1. The Travel – Travel & Stay Booking Web Application | HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js, MongoDB REST APIs, Git/GitHub *May 2025*

- Developed a **full-stack travel booking platform** with **user authentication and CRUD operations for listings and reviews**, allowing only content owners to edit/delete their data securely.
- Built and integrated **RESTful APIs**, implemented **client-side and server-side validation**, and followed the **MVC design pattern** for scalable and maintainable code.
- Integrated interactive **real-time map visualization** using geographical coordinates and designed a **fully responsive UI** using Bootstrap and modern CSS.
- Developed a **responsive UI** and connected the frontend with backend via **RESTful APIs**.
- Deployed the application on **Render**, connecting frontend, backend, and MongoDB database in a production environment.

2. Sequence Game | JavaScript, HTML, CSS *Apr 2025*

• Developed an **interactive memory-based sequence game** using JavaScript with dynamic **DOM manipulation** and **event handling**.
• Implemented game logic for **sequence generation, score tracking,** and user **interaction,** enhancing problem-solving and JavaScript fundamentals.
• Designed a **responsive interface** to ensure a seamless experience across devices.

3. Spotify UI Clone | HTML, CSS *Mar 2025*

• Recreated Spotify's user interface using **semantic HTML5** and **modern CSS3**.
• Implemented responsive layouts using **Flexbox, positioning,** and **media queries** for **cross-device compatibility.**
• Demonstrated strong frontend development skills through **pixel-perfect UI design** and **responsive web development** practices.

Technical Skills

Programming Languages: Java, JavaScript, SQL
Web Development - Frontend: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS, Material UI
Web Development - Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Tools & Platforms: Visual Studio Code, Git, GitHub, Eclipse IDE, LeetCode, Hoppscotch, Postman
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN)
Soft Skills: Problem Solving • Communication • Teamwork • Decision-making • Planning • Strategic Thinking • Time Management • Adaptability • Resilience
Languages Known: English, Kannada, Hindi, Telugu, Tamil

Certifications

• **Full Stack Web Development (MERN) Internship — SuprMentr Technologies Pvt Ltd** *Feb 2026 – May 2026*
4-Month industry-oriented Full Stack Web Development (MERN) internship focused on React.js, Node.js, Express.js, MongoDB, RESTful APIs, Authentication, Database Integration, Git/GitHub, and Deployment.

• **Full Stack Web Development (MERN) — Apna College** *Jan 2025 – May 2025*
5-month course focused on MongoDB, Express.js, React.js, Node.js, REST APIs, and deployment.

Technical Courses

• **Java And DSA Complete Placement Course - Apna College (Youtube)** *Sep 2025 – Nov 2025*
Completed a structured course covering core Java, OOPs concepts, and In-depth Data Structures And Algorithms with problem–solving practice.

• **Data Structures & Algorithms using Java — Self - paced (YouTube : Dinesh Varyani)** *Jun 2025 – Aug 2025*
Completed a comprehensive course covering arrays, linked lists, stacks, queues, trees, recursion, and problem-solving on LeetCode.

Achievements

• **Solved 160+ DSA problems** on **LeetCode.**
• **Ranked among the Top 400 participants** in LeetCode Weekly Contests.
• Developed and deployed **Multiple Full-Stack Projects(Applications).**

Education

SJB Institute of Technology *Graduated: June 2026*
B.E in Computer Science & Engineering *CGPA: 7.70/10.0*
